1 AND THEN THERE WAS THE BLUES 6:34 - Stix Hooper

*This is the sound of love and harmony
It also speaks of hurt and pain
Straight from the soul, with a strong refrain
It shows what life and love can be
Just the truth so free. It is the blues.*

Gretchen Garth, Executive Producer

Jazz is a complex, varied and vast musical
art form in terms of styles, approaches,
rhythm structures, melodies, harmonic
content. settings of instrumentations or
voices and musicians involved.

This project represents some of my
varied and eclectic experience in several
musical idioms along with the creative
expressions that are a part of me.

My intent is to showcase one of Jazz's
other sides of mainstream straight-ahead
swing, while still providing a platform
for personal improvisation and interplay.

Please enjoy!
